

Justin & Diana

Hello!

We're Justin and Diana and we are very hopeful and excited to extend our family through adoption. **We are so thankful for the courage you have to consider placing your baby for adoption.** We hope our profile will give you a good glimpse into our lives and the life we would be honored to offer to you child. We have so much love to give and we hope to share that love with you and your child!

♥ *Justin & Diana*

About *us*!

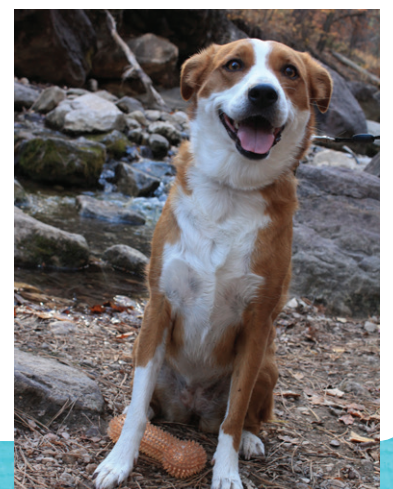

We met briefly by chance through a mutual friend. After Justin asked for my phone number, the first text he sent was the start of our relationship! For the first few years, our relationship was a distant one. Through the distance, we were able to build a strong foundation and learned the importance of communication and just being there for each other. **We have been together for 15 years and married for almost 10 of those years!**

When we asked a family member how they would describe us, they responded with, “calm, patient, kind people that are always willing to help others and be there to support them.”

We live near the Black Hills of South Dakota where we enjoy taking in the many scenic areas the hills have to offer. We have a 4 bedroom - 2 bath home and we recently remodeled the main kitchen and living areas. **We have a friendly neighborhood where our fur baby, Miley enjoys going on walks and saying hi to all the neighborhood kids that are outside playing.**

MILEY...

About us!

We enjoy simply spending time together. We like playing cards or games around the table as well as catching up on some of our favorite tv shows. We travel across the state quite often to visit the family farm and spend time with family and friends! We also try to take at least one trip every year just for us. We love going to concerts and trying new things. Our first ever camping trip is planned for this summer!

We have tried for many years, both on our own and with the help of fertility treatments, to have a child of our own. This process has been the hardest thing either of us has ever been through. With the support we give to each other and receive from friends and family, and also the faith we have in our future, we have become hopeful again! **We have learned through this process that we are meant to be parents and we feel that God is telling us that adoption is the right path for us.**

We have a large family support system as well as several close friends and coworkers that are always willing to help out when needed. **Many of our friends and family have children that our child could become friends with and have lots of play dates together!**

About *Diana*

(from Justin)

Diana comes from a very large loving family that she loves to spend time with. She has her parents and one grandparent, 5 brothers and sisters, 4 of which are married with kids, for a total of 14 nieces and nephews. She has 25 aunts and uncles, 50 cousins that are nearly all married with kids totaling 112 second cousins and counting. All of her immediate family, and the majority of her extended family, live in South Dakota.

She is very caring, nurturing and full of love. **Diana enjoys reading, baking, and is always finding more efficient ways to organize our home.** Her nieces and nephews hold a special place in her heart and she spends as much time with them as she can. **She is the best aunt and godmother!** Diana enjoys playing games with them, taking them to places they like, having them over for sleepovers at our house, and attending their many sporting events. She will always be there for a child and make sure they have everything they need.

CARING | NURTURING | ORGANIZED | GREAT LISTENER | LOVING

Diana tends to be shy around new people, but once she warms up to you, she will always be there to listen and help in any way she can. She will make sure our child has some routine and stability. I can see Diana helping a child with homework while making dinner in the evenings and teaching them how to bake cookies on a Saturday morning. She has been a government accountant for ten years and has the option of a flexible schedule. **Diana was raised in the Catholic church and continues to grow in her faith. She is excited to share her faith and teach our child about God.**

About *Justin*

(from Diana)

Justin is my best friend and I couldn't imagine my life without him. **Justin has a very big heart, which is one of many reasons I fell in love with him.** He is a hard worker and is very caring and always willing to help people out. **He enjoys hunting, working on vehicles, and learning new things.** He is really good at taking the time to explain and teach others different things.

Justin's family includes his parents, one sister, whom is married with 3 kids, and one grandma and grandpa. His immediate family lives in a small town in the middle of the state, so we will often stop and see them whenever we travel across the state. Family get togethers are so much fun, and filled with games and card playing!

I cannot wait to see Justin as a dad! **He is so good with our nieces and nephews and is always willing to play with them and teach them new things.** I can see him outside in the evenings teaching our child how to ride a bike or working in the garage with our child right beside him learning how to use various tools to work on a car or fix something. I can see them at night teaming up to convince me they need just 5 more minutes.

Justin works as a salesman selling automotive parts primarily to local mechanic shops and dealerships. He is always willing to go above and beyond to help out his customers, which proves how much he cares. On a typical day he is out visiting his customers taking orders and making sure they are taken care of.

HARD WORKER | CARING | HELPER | BIG-HEARTED

OUR SWEET puppy Miley

Miley is a huge part of our lives. She is the first animal we brought into our home and she is so LOVED. She's a mixed breed 4-year-old dog. **Miley is a lover who enjoys cuddling, playing fetch, and soaking up the sunshine.** You will never have more excitement when you walk into a home than you will when you come to ours. **She is quick to warm up to you and will be your best friend instantly!** Miley loves playing with everyone from kids to adults, but especially kids; I think it's because they tend to have more energy. She loves to follow them around especially when they want to play catch or fetch with her! She also loves to snuggle up next to them when she is ready for a nap.

Family

Thoughts on *Adoption*

We can't wait to teach them everything we can and support them in any endeavors they want to pursue. We want to instill in them to treat others the way they would want to be treated. It doesn't hurt to try something new, and if they decide they don't like it, well at least they had the opportunity and won't wonder later...what if?

We can offer your child a safe, stable, happy and nurturing home where they will feel loved.

With us, your child will be surrounded by a large loving extended family including many cousins to play and explore with. We want to allow them to enjoy their childhood and fill it with memories they can cherish when they are older. We will do our best to teach them wrong from right and make sure they understand why something is wrong. We plan to teach them about God, and when they are old enough, let them decide what they believe.

Thank you...

...for your consideration.

We hope we provided you with some good insight into the life we can provide for your child. Family is the most important thing to us and we are so humbled for the chance to expand our family with the adoption of a child. **We have so much love to give and we hope you can feel the unconditional love we have to offer.** We can only imagine how difficult this decision is for you, and we commend you for your courage, strength and the love you have for your baby.

♥ *Justin & Diana*
